

Can We Change Our Destiny?

# Power Of Choosing How To Act

What's the difference between animals and humans?

Animals are bound to live by their instincts &

Humans have the power of choices of how to act.

Use of this power of choices can we see in the life of this person,

who is known to have the worst horoscope,

the person who could not enjoy the popular Yogs & pleasures which we run behind.

In fact it was predicted at his birth that his life would be full of  
challenges and hardships.

Separation from parents, brothers & kingdom - Hard life in jungle -

Separation from wife & kids - Battles with most powerful forces -

And many other hardships

Although life threw difficulties, hardships, new challenges in front of him  
for which he couldn't do anything.

But one thing he knew he could always do, that is “To choose to act rightfully.”

And that's what he did, in spite of the horrible surprises of the life,  
he used his power of making the choice to always act rightfully.

That's why he is known to be as  
Maryada Purushottam Ram.

The person who is now worshipped as God only because  
he stood tall against his destiny by using his power of making the choice to act rightfully.

It doesn't matter what your destiny brings to you,  
What matters is are you using your power of choice and acting rightfully?
