

Fault In Our Stars

# Take Care Kaka Singh

It could be surprising for you, but...

Do you know we have Astrologers, Vastu Experts, Numerologists, Tarot Card Readers, Angel Healers, Past Life Therapists, Reiki Healers and experts of many other related fields too in this Broadcast list.

And none of them even felt that there is anything disrespectful in our lessons of Fault In Our Stars or past lessons.

You know why?

Because they know that we are not against any practice or faith or anything like that, we are just against that thing inside of Kaka Singhs which make them feel helpless, weak & make them dependent on outer supports.

I myself have studied and practiced & know some of the things mentioned above too, and none of those promoted to exploit the weaknesses of others.

I am not against astrology as I don't have any knowledge about it,  
and we can't oppose anything without knowing about it.

But I am strongly against  
the weakness, helplessness, laziness, dependency, bad attitude  
because I felt, have been through & know about them.  
And learning to rise above them with the association of my Vivekanandas.

There are many questions coming regarding the things we have discussed in this series;  
specially about Svadharma, Love & Karmayoga.  
We will discuss them too in future for sure.

But for now, we will discuss something related to “The Fault In Our Stars”,  
We will discuss & learn from the stories of 5 legends from Mythology  
who made The Destiny look dwarf in front of them.
